DETAILED ACTION

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach a positioning apparatus having a process chamber and a decompression chamber wherein a stage of a first differential pumping seal and the inside of the decompression chamber are connected to the same exhaust source as recited in claim 1. The prior art of record does not disclose or teach a positioning apparatus having a process chamber and a decompression chamber wherein a control device controls the gap between a first guide face and a moving block in accordance with at least one of the first differential pumping seal and the seal mechanism as recited in claim 2.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dickinson et al. 6,846,380 B2 discloses a positioning apparatus with a main chamber and a sub-chamber with neither chamber being at atmospheric pressure. Munakata et al. 4,948,979 discloses a positioning device with a vacuum chamber and a vacuum pre-chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H. Jones whose telephone number is 571-272-2025. The examiner can normally be reached on 8-4:30 M-F.
